

BL-266 Active Wall-Mounted Speaker

Wall Speakers

The BL-266 is a powerful and versatile active wall-mounted speaker from SAT. Designed with a 6.5-inch 2-way speaker system, it provides exceptional sound clarity and performance. Its active design, durable construction, and wide frequency response make it ideal for a variety of indoor audio applications in both professional and commercial spaces.

Key Features

- Active wall-mounted design for enhanced performance
- 6.5-inch 2-way speaker for detailed and clear audio
- High power output of 60W for impactful sound
- Wide frequency range (50Hz - 20kHz) for superior clarity
- Durable and compact design for indoor applications

Applications

- Offices and conference rooms
- Schools, training centers, and lecture halls
- Cafes, restaurants, and retail spaces
- Small indoor public announcements and music systems
